Outstanding Color Performance..

- 1.Fast speed of changing, from white to dark and vice versa.
- 2.Perfectly clear indoors and at night, adapting spontaneously to varying light conditions.
- 3.Very deep color after change, the deepest color can be up to 75~85%.
- 4.Excellent color consistency before and after change.

The advantages of blue cut lens.

Blue Cut Lenses is to block and protect your eyes from high energy blue light exposure. Blue cut lens effectively blocks 100% UV and 40% of the blue light, reduces the incidence of retinopathy and provides improved visual performance and eye protection, allowing wearers to enjoy the added benefit of clearer and sharper vision, without altering or distorting color perception.

**BLUE CUT LENSES ARE SPECIAL
COATED LENSES THAT ARE DESIGNED TO**

- Filter Harmful blue light
- Normalize sleeping patterns
- Improve contrast and reduce glare
- Improve Visual activity & Night vision
