

#### Overview

Place of Origin: Jiangsu, China

Model Number: 1.56

Photogray/Brown Lenses Color: Vision Effect: Progressive Corridor: 12+2mm Brand Name: kingway Certificate: CE/ISO Lenses Material: NK55 Coating: HC, HMC Diameter: 70mm

Whatsapp, Skepe, Wechat, Email

## Packaging & Delivery

Selling Units: Pairs

Single package size: 50X45X45 cm Single gross weight: About 22kgs

Package Type: inner bag,out carton, export standard or upon your design

Lead Time: Quantity(Pairs) 1 - 3000prs, 15days

Quantity(Pairs) > 3000prs, To be negotiated

### Photochromic Gray 1.56 Cr39 Progressive short corridor eyeglass Lenses HMC

Index	Corridor Length	Photochromic	Diamater			
1.56	12+2mm	Grey/Brown	65/70mm			
Abbe	Specific Gravity	Transmission	Coating			
42	1.20	0.97	HC,HMC/AR Coating			

#### The Advantages Of Progressive Lenses.

- --With progressive lenses, you won't need to have more than one pair of glasses with you. You don't need to swap between your reading and regular glasses.
- ---Vision with progressives can seem natural. If you switch from viewing something up close to something far away, you won't get a "jump" like you would with bifocals or trifocals. So if you're driving, you can look at your dashboard, at the road, or at a sign in the distance with a smooth transition.
- ---They look like regular glasses. In one study, people who wore traditional bifocals were given progressive lenses to try. The study's author said most made the switch for good.

#### **Outstanding Color Performance..**

- 1.Fast speed of changing, from white to dark and vice versa.
- 2. Perfectly clear indoors and at night, adapting spontaneously to varying light conditions.
- 3. Very deep color after change, the deepest color can be up to 75~85%.
- 4.Excellent color consistency before and after change.

## AR Coating.

- --HC(hard coating): To protect the uncoated lenses from scratch resistance
- --HMC(hard multi coated/AR coating): To protect the lens effectively from reflection, enhance functional and charity of your vision
- --SHMC(super hydrophobic coating): To make the lens waterproof, antistatic, anti slip and oil resistance.
